Check that your name and level of participation are correct. Also check that you have a question booklet for your level of participation.

Your ID number will be written on the card. You need to fill in (“bubble in”) the ovals under each digit corresponding to that digit. The example here shows 305472 filled in.

Fill in (“bubble in”) ovals completely using a pencil. If you need to make changes, erase well.

Fill in (“bubble in”) the oval with the letter (A, B, C, D, or E) that corresponds to what you think is the correct answer on the line that matches the question number.

There is only one correct answer for each question. If you fill in two ovals, the question will be marked wrong even if one of the answers is right, and you will not receive points for that question. No points will be taken off for wrong answers.

Your test will have 24 or 30 questions, so you will be filling in ovals only in the first column.
